

# 2022 Open Group Climbs

Our open group Kilimanjaro climbs are limited to 16 people and are perfect for solo travelers, pairs or couples whom want the company of others.

Each group is comprised of climbers from all over the world.

A small-party climb is the best way to climb Kilimanjaro because it ensures individualized attention, added flexibility, and increased safety.

Please Note: Private climbs are available for parties of any size, who want to climb certain route variations and want to be with only friends or family in the group.
